EDUCATION

University of British Columbia

Bachelor of Science in Computer Science — GPA 92.8%

Vancouver, BC

Sep. 2025 – May 2029 (expected)

Homestead High School

6 AP, 2 Honours Courses

Cupertino, CA

Aug. 2021 – Jun. 2025

EXPERIENCE

Undergraduate Teaching Assistant for CPSC 110

University of British Columbia

Jan. 2026 – Present

Vancouver, BC

- UBC's main introductory Computer Science course, focusing on software development through theory and systematic program design
- Work in a team to **lead** and **teach** in labs of about 30 students
- Clearly communicate **how** to implement different kinds of recursive algorithms and **why** they work.
- Internalize and enforce good practices in a software development context (eg. stylistic, communicative)

Japanese National Honor Society Secretary

Homestead High School

May 2024 – May 2025

Cupertino, CA

- Teach students about Japanese culture in monthly meetings of 30+ students
- Plan collectively for events, meeting presentations, etc.
- Focus on communication within 9 person leadership team and 50+ club members

Waitress

Hajime Ramen

Jun. 2025 – Present (Seasonal)

Santa Clara, CA

- Work efficiently within a large, cross-functional team

PROJECTS

Motion | *HTML, CSS, Javascript, Postgres database, Git*

Apr. 2026

- **First place** project in the beginner stream at youCode 2026, UBC WiCS's *24 hour* hackathon.
- Full stack developer: grew proficiency with HTML, CSS, and Javascript, and implemented a back-end for the first time using Supabase.

LearnLoop | *HTML, CSS, Javascript, React, Git*

Nov. 2025

- In a team of 4, contributed to front-end to build a functional mockup of LearnLoop in an *18 hour* hackathon
- Learned basics of HTML, CSS, Javascript, React, and APIs through workshops and experimented with them

Scooped | *Java, Git*

Feb. 2024 – May 2024

- Collaborated in a team of 3 to design a fully functional, timed, multi-stage ice cream building game inspired by 'Cooking Fever!'
- Each food item exhibits unique properties or poses a unique challenge, implemented using key OOP concepts such as inheritance and polymorphism

AWARDS

Seal of Biliteracy in Japanese | *California Department of Education*

Jun. 2025

AP Scholar with Distinction | *College Board*

Jul. 2025

TECHNICAL SKILLS

Languages: Java, HTML/CSS, Tailwind CSS, JavaScript, R, Racket

Frameworks: JUnit

Developer Tools: Git, VS Code, IntelliJ, Eclipse

Course Work: AP: Computer Science A, Physics C: Mechanics, Calculus AB, Statistics, and more. DSCI 100 (Intro to Data Science), MATH 101 (Integral Calculus with Applications), CPSC 110 (Computation, Programs, and Programming), CPSC 121 (Models of Computation), CPSC 210 (Software Construction)
